EXPERIENCE

FULL STACK WEB DEVELOPER • KOLVANTA • SEPT. 2019 TO PRESENT • UTAH
Ariix Diamonds E-commerce Project
- While this was live on a private MERN stack website, created an order management system to keep track of purchased orders from processed to delivered; moving away from Google Sheets.
- Migrated the site to Shopify, authorized it private for reps, added ARIIX's custom reward point system and payment method, translated to 13 languages, improved custom design form, and redesigned the bought Shopify Theme resulting in orders rising exponentially.
  Skills Used: React.js, Express.js, Node.js, Shopify Liquid, Javascript, jQuery, CSS.

Kolvanta Marketing & WaterStation Project
- Created a Shopify store to display Hylyte locations on a map and sell reservations for companies to start their campaign advertisements.
  Skills Used: Mapbox.js, Shopify Liquid, Javascript, jQuery, CSS.

FRONT END WEB DEVELOPER • IDENT SOLUTIONS • JUN. 2019 TO AUG. 2019 • UTAH
Neumont College Enterprise/Internship
- Creating an application for internal use in the company to better analyze data gathered from their critical infrastructure screening software.
- Updated a React based front end to call the newly created endpoints and dynamically display returned data using features like charts and graphs, filterable list views, and configurable CSV exports.
  Skills Used: React.js, Redux, Jest, Java.

SOFTWARE DEVELOPER • LEADING2LEAN • APR. 2019 TO JUN. 2019 • UTAH
Neumont College Enterprise/Internship
- Fixed the website's use of Angular so that it's only declared and updated in one file.
- Updated user components resulting in uniformity across the whole website.
  Skills Used: JavaScript, Angular.js, jQuery, Python, and Django.

EDUCATION

NEUMONT COLLEGE OF COMPUTER SCIENCE • GRADUATED AUG. 2019
Bachelor of Web Design and Development
3.77 GPA.
